[Portfolio page](#)

Motivated Computer Science graduate (**GPA 95.5**) with hands on experience in software development and automation projects. Passionate about creating scalable solutions and solving real-world challenges through clean, maintainable code. Seeking an entry-level software development opportunity to contribute and grow.

Projects

InterviewTracker - Interview Management System – [Website](#)

- Built a **full-stack web app** using **Python (Django)** and **PostgreSQL** to track and store users interview experiences.
- Implemented backend logic to **analyze and score interviews**, based on multiple parameters, with **dynamic data visualization** using **Chart.js** and **JavaScript**.
- Designed a **responsive UI** using **HTML/CSS** and **Bootstrap**, focusing on clear data presentation and user experience.
- Developed to support **job seekers** by offering tools to monitor and reflect on interview performance over time.

PlanItGo - Travel Planning App – [Repo/Demo](#)

- Developed a **feature-rich travel planner** in **Kotlin** using **Android Studio**, following **MVVM architecture** for clean code separation and scalability.
- Integrated multiple REST APIs via **Retrofit**, including **Google Places**, attraction details, and **AI-based translation** services.
- Utilized **Coroutines** for efficient asynchronous tasks and **LiveData** for real-time UI updates.
- Built intuitive **trip planning features**, attraction discovery, and smooth navigation with **bottom navigation bar** for seamless UX.

Professional Experience

2023 – Present | Private Tutor Computer Science

- Provided private tutoring in a variety of Computer Science subjects, including Introduction to Computer Science, Data Structures, Machine Learning, Communication Networks, and Algorithms.
- Customized lesson plans to meet individual student needs, simplifying complex topics with clear and intuitive explanations.

2023-2024 | Technical Support Associate, Wolt

- Collaborated with dev and ops teams to validate software functionality and resolve system issues.
- Improved internal OS workflows and automation tools for smoother operations.
- Contributed to customer success by resolving user issues and identifying recurring technical problems.

Technical Skills

- **Programming Languages:** Python, Kotlin, Java, C/C++, C#, TypeScript, JavaScript.
- **Web & Backend:** Django, FastAPI, Node.js, .NET Core, React.
- **Databases:** PostgreSQL, MongoDB, MySQL, SQLite.
- **Mobile Development:** Android (MVVM, Coroutines, Retrofit, Jetpack)
- **DevOps & Tools:** Docker, Git, GitHub Actions, Jenkins, VS Code, IntelliJ.
- **APIs & Integration:** RESTful APIs, Postman, Swagger, OAuth2.
- **Testing & Automation:** pytest, Unit Testing, CI/CD Pipelines.
- **Data & Analysis:** Pandas, NumPy, SQL, Matplotlib.

Education

B.Sc. in computer science, Holon Institute of Technology(HIT).

- **GPA of 95.5**, Part of the dean's honors list.
- Relevant coursework: Algorithms, Data Structures, Operating Systems, Communication networks.

Military

Combat Engineer, Mar 2016 – Nov 2018 (Active Reserve Duty 2023–2025)

- Special Unit soldier in Combat Engineer forces.
- Head of the team in managing exercise schedule and workouts, and recruiting new soldiers to the unit.

Languages

- **English** - Native (American).
- **Hebrew** - Native.

Volunteering - Impact Associate

- Provide emotional and practical support to older individuals experiencing loneliness and disabilities.
- Contribute and support community-driven initiatives aimed at social inclusion.
